

Executive Order
11-9011

Nov. 7, 1959

Mr. Allen Dulles
C.I.A., Washington, D.C.

20 Nov 59

Dear Mr. Dulles:

Thank you so much for your kind reply. Please exert your influence in Washington to have us come back to the American way of life. The dinner with Khrushchev at the White House made many people sick with agony and it hurt to hear you attend. Our friendship and culture routine with Russia is against the interests of this country. The money they the Russian government gets from these exchanges (while our diplomats are burdened the State Department among some of these things) will come back to us like the scrap iron that went to Japan in the last war. When will America learn?

Mr. John Foster Dulles' firm policy against world communism should have been adhered to. He was a staunch patriot and a great Christian. The Holy Bible to him was not to be used for jokes (Khrushchev even quotes these days to mock the Lord) and Holy Communism has become a national joke. I am sure that your brother in Heaven is praying for this Nation that has lost the war. Mr. Dulles, it can't go on like this. Protestant church leadership is in the hands of a bunch of Communists. They are defrauding the people by accepting devotions, preaching Christ and seeing the atheistic world conspiracy. I'm sure that next thing they'll try something with Russian religious freedom to fool us. Most of all the swindle of the psychoanalysis and religion routine is being practiced in churches and frauds the arch enemy of God. It excuses loose living, creates juvenile delinquents who sneer at police authority, cuddles criminals; it's a national disgrace; it's high class dirt. A human being can be destroyed by this honor and besides it is a Marxist practice and cannot go on. Probably next thing they'll try to frame Mr. Dulles' memory because he apparently knew some of these leftist actor churchmen who evidently fooled that great American with talk of Christian zeal. The President also evidently refuses to see this truth. He must clean up this country or subversion will make us a Russian slave camp. Thanking you once more for your kind words.

Sincerely,

Maja Lubbe
123 West 44 Street
New York City

P.S. I am enclosing some of my Freedom letters which I'm mailing throughout the country.

CALL TO ALERTNESS

BY MAJA LUBBE

A great danger confronting the members of the world's Free Nations today and also those who strive for Freedom is the global disarmament plan.

It would leave ultimate power in the hands of scientists who without mighty armies of the Free world behind them will become captives of communist doctrine.

Thus with a vast arsenal of psychochemical weapons at their disposal, the world's populations can be driven into mental slavery and especially the huge masses of the Asiatic and African continents who will be returned to bondage such as they have never known and used as slave labor by those who under the guise of liberators would make them servants of the totalitarian state, as they regard colored races as inferior. There really are no races, just one - the human race. There are various colors. The differences lie in neglected educational facilities and social conditions of poverty. The Free world alone can alleviate these conditions and work for ever greater unity and friendship of people who value Freedom more than mere existence.

Military Might of the Free world is urgently needed as a deterrent to war, the wave of hysteria that is being artificially created about nuclear weapons is to terrorize people into surrender.

The brave Hungarian Freedom fighters have shown us what raw courage means, the other Free Nations of the world still have moral courage too.

Even now Hungarian Patriots and other Freedom Fighters are facing the execution squads. Today it is them. Tomorrow it will be you unless you stand firm in upholding the principals of a world with Freedom and Justice for all.

FIGHT COMMUNISM
SUPPORT LEGISLATION TO HAVE THE
GOVERNMENT INFORM PEOPLE.

BY MAJA LUBBE

We are on a wagon riding down a hill at top speed, without brakes and heading for a head-on smash into the deepest canyon of human despair. Only two courses are open, to smash up on the rocks or to jump out of the wagon and drag our battered bodies up the hill again, clinging to a ledge until a helping hand helps us to the next position up; may be that is how the Flag got on top of Iwo Jima, it was not delivered neatly wrapped by a store. If we do not jump off the rolling vehicle this is what the future holds:

A Businessman's office, perhaps in New York or Washington- the year 1962? An executive at his desk. Enters a Russian "Trade consultant": "You will turn over all your shares and profits to the representative of the socialist order, sent by our Committee on activities to protect American Freedom, tomorrow morning. The businessman: "Now listen, this goes too far. When I promised to cooperate I meant doing business with you, not giving up my business." "One does not argue with a representative of the Freedom Committee, Russian discipline is being introduced in America to teach you the true meaning of Freedom and therefore you will be relieved of the burden of ownership. Report for work tomorrow morning at 8 a.m. at the Committee for American displaced persons, where you will find helpful assistance." "Now see here", "Nyet, one does not contradict a representative of the true people's democracy." The Russian stalks out ...

The American businessman grabs the phone, calls his friend, Senator "Sorry, the Senator cannot be reached." The American businessman is a friend of the Senator, has known him for 10 years. He jumps into his car (not yet confiscated) and rides to his home. A maid opens: "Sorry the Senator".... The American businessman gets angry. "What do you mean. I can hear his voice. He is my friend." He brushes her aside, stalks angrily into the Senator's study. Enters a young man: "What do you wish?" "I must speak to the Senator on a matter of the utmost urgency." "Sorry, the Senator does not speak anymore except on the floor where he is told what to say as a representative of the people's democracy. He has a specially appointed driver who drives him to and from Capitol Hill. His assistant, Mr makes all the appointments, and his schedule is filled. Good night, Mr. Smith". "But, but".... "Ifs and buts have been eliminated from the English language" and is shown to the door.

The businessman staggers home. At last the truth dawns on him. Where to go ... where to turn? America? America is gone ... the Stars are spent, the Stripes are prisoner's stripes now. His wife? A victim of nervous tension, but holding up. His children? Ruin, financial disaster. God? ... Where is God? ... forgotten long ago and far away. Completely unscientific. What to do? ... Oh yes, the tranquilizers, the boon of the medical profession. The Doctors? Oh yes, we have socialized medicine - 50¢ a visit now. Call your friends? Who are your friends? All the lines are busy - the phones are tapped ... Speak to your wife? She took a pill, sleeps in a stupor, had a few cocktails. Your son? Out with the young intellectual crowd, probably discussing the latest "American" novel written by a local Communist, approved by some "liberal" dignitary. Your daughter? Having a ball with the latest group of cultural exchange students, probably will marry Sergey something or other ... God ... Where is God? Try to pray -- no, no, they have been in outer space, positively no God ... the pills, yes, gulp them all, the pain, the head - it's spinning, so vague, America? yes America ... a memory, a country .. a past .. it's gone, the Stars and Stripes wrapped around the pole .. Oh slumps into unconsciousness.

The next day in the paper: OBITUARY. Cyrus E. Smith took an accidental overdose of sleeping pills. The police list ... The Community mourns the loss of a distinguished business leader in the City.

PRELUDE TO DISASTER

by MAJA LUBBE

The American people must beware of falling into the trap of Communist thought control or face disaster and mental slavery.

The Soviet plan is to make a huge slave labor camp of the whole world with the United States the greatest victim. Slave Nation No. 23 (it has happened to 22 other countries and we are the biggest obstacle to world conquest)

They are proceeding as follows:

1. Try the sudden friendship act, including the culture exchange routine which consists of Russian Communists running all over this country while known American Communists and fellow travelers are running all over Russia supposedly representing the American people.
2. Penetrate every organization including religious groups, try for positions of leadership.
3. Push disarmament proposals, so that after spending billions of American Dollars on strong defenses, which serve as deterrent to war, we will be weak and at the mercy of scientists, many scientists are already thought conditioned or thought controlled by the Kremlin and thus we will all eventually fall victims to the iron hand behind the iron curtain.
4. Try to get at the Army, let Russian Army men come to visit next giving the illusion that they too are motivated by idealistic patriotism.
5. Get the young intellectuals to become perverted in their thinking, falling for the materialistic theory that man is only matter controlled by glandular processes.
6. Promote progressive education and its detrimental results.
7. Juvenile delinquency is a direct result of this perverted system of education.
8. Get the people brainwashed and befuddled (the diplomatic word is tension).
9. Turn Americans against each other, using divide and conquer tactics, use the various religious denominations, management, labor, color, racial bias, anything that will get us to fight with each other.
10. Groom Candidates for Office to eventually take over by subversion.

America's Answer is NO. We will keep our Freedom, we will keep our strong defenses. Hungarians are not the only Patriots left in the U.S.A.

By Maja Lubbe

The recent series of articles by the New York Post and the inference that Mr. J. Edgar Hoover is trying to glorify himself is not only absurd but ridiculous. His stern warning of April 8th about the subversive menace facing us got only a few lines coverage in the Press. His great speech of June 16th was not even reprinted in full in the local paper of the small town where the speech was made.

The idea to have congressional Committees harassing the very organization that protects our constitutional liberties by fighting against those who would deprive us of that Constitution is absurd.

Any dictatorial tendencies, should they have been present in Mr. Hoover, would have had ample chance to be manifested during 35 years of service. None were forthcoming. Some 19 academic and honorary degrees are not acquired by mere excessive devotion to watching wrestling matches.

The innuendo that Rackets are not probed into deeply is that Communism is behind it all, and that the F.B.I. has been greatly hampered in getting these big Racketeers and Communists, because they have not been able to obtain enough convictions. Our so-called law enforcement agencies really are Judges and juries. The Mafia has spread its ugly tentacles into every phase of our national life (a good book by this title is available at bookstores, written based on material furnished by the F.B.I.)

How could the moving picture "The F.B.I. Story" be the saga of Mr. Hoover's life when he is hardly mentioned. What propaganda machine is Miss Schiff referring to when the facts are that the F.B.I. is not even allowed to inform the public on the Communist menace (occasional statements and testimony by its director, Mr. Hoover does hardly get into the newspapers.)

Methods of intimidation seem to work in reverse. The facts are that it is usually those who are supposed to testify on Communism who get sudden amnesia attacks or plead the fifth amendment.

What was devastating about the Bob Considine interviews in the Journal American is not at all explained.

If the F.B.I. agents lurk behind every door, how come that Communists are running wild all over the country - in many cases standing at street corners and yelling to be liberated (from liberty, they can't stand it.) The reason, as stated above, that crooks and Communists are not being arrested, is that too many courts do not convict them.

Being efficient and methodical is not a fault. We can't have a sloppy investigative agency. Being religious is not unconstitutional (a trait attributed to Mr. Hoover). On the contrary, a great asset in accordance with our American way of life.

The fact that the F.B.I. is against letting every Tom, Dick and Harry get at their files is very logical. It protects people from getting smeared.

The title of the articles by Miss Schiff "My secret life with J. Edgar Hoover" was misleading to those just glancing at this heading - and furthermore, totally illogical, because, at the same time that Miss Schiff used this title she complained that she could not even get to see Mr. Hoover.

Distortion of fundamental truth does not appeal to the American people.

LET US RETURN TO THE FAITH OF OUR FATHERS

By MAYA LUBBE

The days of passive Christianity are over. Today with the evil force of atheistic Communism staring us in the face, our congregations of the Protestant faith have to be stirred into action by a holy Crusade for Christ.

This task has to be accomplished to a great extent by our ministers who are His servants. The ridiculous contention on the part of some laymen and even some ministers that "Communism" can be classified as politics, is practically sacrilegious. The primary aim of communism is to destroy belief in God and to introduce subtly the modern trend, namely emphasizing the "humanity" of Christ, until they succeed by thought control to get people to believe that Christ was a mere prophet and finally - just a good man -.

To a true Christian, the humanity of Christ is a symbolism to make mortal man see with mortal eyes, while Christ walked the earth.

To a would-be Christian, the Divinity of Christ is a symbolism, and he accepts the humanity of the Lord as the real Christ.

For a clergyman of the Protestant faith to doubt (and there are surely but few) but the problem has come up recently, the Virgin birth of Christ is also a completely incomprehensible attitude because by sheer logic, if Christ proved to be God by the Resurrection in death He surely proved to be God by being born of the Holy Spirit, because He surely did not "become" God's son by education or development. If He had earthly parents He would be no more God's Son than we all are God's children. Other dead people were raised by Christ prior to His Passion of Golgotha, and we could then assume that it was a period when God the Father raised the dead and thus Christ would be just like Lazarus, therefore, to doubt the Virgin birth is really to deny Christ's divinity.

An earthly Mother was the Lord's tool to prove the human symbolism of the agony of birth as Christ's crucifixion was to be the human symbolism of the agony of death. God is eternal and His law cannot be modernized.

Changing social conditions have nothing to do with Christ, but only with humanity, and Communism and so-called socialism is not to be classified as a "social condition" but as a disintegration of every moral force that is the basis of a Christian society, and without God there is nothing but mortal misery and deprived of any meaning.

That is why a great Christian Crusade of ideas is needed to shake our people out of their Christian inertia and their fatal apathy.

This letter is not meant personally, but I am sending it to many Clergymen throughout the country, because if we all don't become Christian soldiers now it may be too late, and thus the Free world's Christians will fall behind the iron curtain of mental slavery.

TO OUR FUTURE SCIENTISTS

It is a rather startling realization to the average human being that the scientific minds of our era have while advancing in exploration of physical matter had a complete regression in spiritual maturity.

While exploring all the various aspects of educated matter the simple truth of man's purpose in life has been completely ignored.

Whether a dog jumps to his master's whip or a monkey is driven by radiological means or a human is victimized by thought control is really of inconsequential importance in relation to the purpose of the Universe.

In the immature quest for ever deeper exploration of the physical aspects of life the simple fact of reason has been overlooked. Namely reason for man's existence.

It seems such a paradox that minds trained in logic seem to have lost all sense of reality. The greatest reality of all being that of Creation and thus by sheer logical pursuit arriving at the source namely the Creator of the Universe.

The theory of spontaneous combustion or evolution from the simple cell to a human being composed of many complexities is to say the least quite immature. The great spiritual force which has emerged victoriously and triumphed always, the strength of faith over ruthless tyranny is the driving force of humanity. Materialistic existence controlled by temporarily existing forces destined to extinction is very unsatisfactory to say the least and it is hard to understand how the scientific mind can content itself with accepting such existence as having any meaning at all.

If life is devoid of faith of the acceptance, of the greatest driving force of all, the surrender of self to God the Creator of all, then it becomes a senseless mechanical functioning of various parts of the anatomy similar to that of a robot. Are we to be so immature as to believe that after years of research of such magnitude as has been conducted in the 20th century all we can come up with is that man through "evolution" has almost perfected himself to the state of a machine which used by the wrong state (The Totalitarian State) in turn is to control man. It is a concept somewhat similar of that of a little boy who receives a set of electric trains for Christmas and feels himself Lord and master for a night because he can control the switches and make the train stay on the track. This infantile urge of modern scientists to play God with humanity and know it all is hard to reconcile with the maturity of mind required to absorb the intricate knowledge of equations and formulas needed in the study of science.

The day will surely come when our young scientists will wake up to the reality that no matter how far we progress in the exploration of concrete matter, it is always only in the realm of the temporary earthly form of the Universe that we are progressing while getting further and further away from the true meaning of life and it's spiritual driving force, namely God.

Let us ponder upon these questions because man's search for the purpose of life cannot be found through scientific equations in the realm of matter.
